Torah:
By Shomit Sirohi

I. A Room, and Spiritual Life, even a Methodology to Predict the Future, Prophecy, but also daily News, daily Newspaper in Hebrew words and images of the old Newspapers, also images of Jewish life, God's revenge and Kabbalah proven already in Gadamer and Sirohi.

In fact one can develop the format of assertions in the stylism of Urdu format newspapers the way I, Sirohi, reads them, in a more Hebrew format – that in fact one derives it in speculation, and imagines a newspaper which then can be written, which is the following text –

ק גקהקרמפצקמא גו לשננשרקדצ קדא ומ כרשעצקמא קמ אסרשי – רממצL

II. Hermeneutic – Simple judgements, Dialectical Simple Abstraction and Religion as Idea

The simple Christian and Islamic form of life which commences each day in simple format, and also develops a simple guess-work on the judgements of the doing of the day, which then is actually – synthetic progression, active synthesis and analytic a priori with a posterior and judgements of different tables, is then actually a dialectical process which reflects the simple Hermeneutic in the title.

III. Derive Spiritual Truths and Torahnic conceptions of Time, Letters, Numbers and Aleph, even Arabic Jewish things, like Alif and its meanings.

I mean then be a letterly, numberly person. Like Borges in a car.
